

Seminar Report: [seminar ID] (e.g. Chatty)

Name of team members

February 6, 2019

Upload your report in PDF format.

Use this LaTeX template to format the report.

A compressed file (.tar.gz) containing all your source code files must be submitted together with this report¹.

1 Introduction

Introduce in a couple of sentences the seminar and the main topic related to distributed systems it covers.

2 Experiments

Provide evidence of the experiments you did (e.g., use screenshots) and discuss the results you got. In addition, you may provide figures or tables with experimental results of the system evaluation. For each seminar, we will provide you with some guidance on which kind of evaluation you should do.

3 Open questions

Try to answer all the open questions in the documentation. When possible, do experiments to support your answers.

4 Personal opinion

Provide your personal opinion of the seminar, indicating whether it should be included in next year's course or not.

¹Describe in the report any design decision required to understand your code (if any)
